Core Courses: *Introduction to Analysis I, Stochastic Processes II, Enumerative Combinatorics, Numerical Analysis/Linear Algebra, Actuarial Mathematics I, Discrete Math & Graph Theory, Applied Linear Algebra*

Mount San Antonio College Walnut, CA GPA: 3.93/4.0; Mathematics Achievement Scholarship Aug 2021 - Jun 2023

WORKING EXPERIENCE

CSC Financial Nanchang, China *Research Intern* July 2023 - Sep 2023

- Facilitated the collection, cleaning, organization, and analysis of industry data, enhancing understanding of trends in annual reports of chip companies listed on the stock market.
- Created data visualizations using Excel to present findings clearly and concisely, aiding in the interpretation of complex data sets.
- Coordinated key communications, such as quarterly conference calls and official announcements, to stay abreast of evolving industry trends.
- Authored comprehensive research reports, integrating primary and secondary data sources including IPO prospectuses, company news, and stakeholder data, providing strategic insights into future earnings and potential investment value.

Jinher Network Beijing Beijing, China *Low-Code Platform Tester Intern* Jun 2022 - Aug 2022 • Conducted comprehensive testing on an innovative low-code AI platform capable of generating application frameworks within 5 minutes, based on user-defined parameters.

- Collaborated closely with the development team to provide detailed feedback and suggestions for platform enhancements, ensuring robustness and user-friendliness.
- Assisted in optimizing app templates for various domains, enhancing their functionality and aesthetic appeal, and ensuring they met the specific needs of different user groups.

Kebang Cultural Company Nanchang, China *Event Coordinator Intern* Jun 2021 - Aug 2021 • Organized and participated in biannual bookstore publishing and sales events during summer and winter breaks to promote newly published textbooks.

- Arranged and conducted daily presentations at public high schools in Beijing and Zhengzhou, introducing new educational products, sharing personal experiences with practice books, and hosting Q&A sessions for students and teachers.
- Coordinated logistics and managed event schedules to ensure smooth execution and high engagement from attendees.

LEADERSHIP EXPERIENCE

Red Cross Society Nanchang, China *Volunteer Group Leader* Jul 2020 - Aug 2020

- Organized community members for orderly COVID-19 testing, ensuring compliance with health protocols. • Compiled testing lists, managed logistics, and assisted community members in understanding testing procedures to streamline the testing process.

SKILLS & LANGUAGES

Programming: Proficient in Excel and C++ for data processing, statistical analysis, and data visualization **Languages:** Proficient in Chinese and English
